Explore the most fascinating, creative, dangerous, and complex species alive today: you and your neighbors in the global village. With compelling photos, engaging examples, and select studies by anthropologists in far-flung places, the authors of ANTHROPOLOGY: THE HUMAN CHALLENGE provide a holistic view of anthropology to help you make sense of today's world. You'll discover the different ways humans face the challenge of existence; the connection between biology and culture in the shaping of human behavior; and the impact of globalization on peoples and cultures around the world.
