

A Love Letter to Black People: Audaciously Hopeful Thoughts on Race and Success

I Love Black People! I Just Cant Help It. A Love Letter to Black People: Audaciously Hopeful Thoughts on Race and Success by Brian McClellan is a book sure to challenge and inspire those who have this type of deep affection for the Black community but also deep concerns for its future. Inspired in part by the historic political success of Senator Barack Obama, Love Letter explores the unique way high achieving African Americans view race and success and why, for the love of the Black community, all Black people must apply these lessons. The insightfulness of McClellans discussion in Love Letter is bolstered by a supporting survey about race and success completed by more than 100 young, Black business and community leaders. Their opinions regarding provocative racially charged topics such as acting white are inspirational, thought-provoking and sometimes more provocative than the questions themselves. Love Letter is a must read for those who love Black people and just cant help it!
