

## The Box That Christmas Came In

The young couples joy at bringing their twin girls home from the ICU is quickly dissolving into desperation. They are alone and hungry. There is no food in the small apartment, and the blizzard outside makes it almost impossible to go out. But it wouldn't matter if it were sunny outside. The family has no money. Then the doorbell rings and a small miracle happens a miracle that will live on for generations. Rekindle the fire of your own family traditions with this gentle story that reminds all of us that we are not alone that our needs can be met by the hands of angels everywhere.
