

American Ace

This riveting novel in verse, perfect for fans of Jacqueline Woodson and Toni Morrison, explores American history and race through the eyes of a teenage boy embracing his newfound identity. Connors grandmother leaves his dad a letter when she dies, and the letters confession shakes their tight-knit Italian American family: The man who raised Dad is not his birth father. But the only clues to this birth fathers identity are a class ring and a pair of pilots wings. And so Connor takes it upon himself to investigate - a pursuit that becomes even more pressing when Dad is hospitalized after a stroke. What Connor discovers will lead him and his father to a new, richer understanding of race, identity, and each other.
