

Prudence Wallflower tours the country, making live appearances. She connects people with loved ones who have passed on. However, her reputation as a psychic medium is failing, and even Prudence has begun to doubt herself. She has never seen a ghost, but receives impressions from the dead. This all changes when the ghost of a detective appears to her and demands her help to solve a murder. Prudence finds herself out of her depth, and to make matters worse, she is more attracted to this ghost than any man she has ever met.
