

Visions of the Prophet brings more of Gibran's writings to an audience curious about who Gibran was and what else he wrote. A companion volume to *The Eye of the Prophet*, *Visions* is Gibran's most intellectually challenging book yet. Poems, short essays, and the dramatic play *The Many-columned City of Iram* trace the development of a young man through middle age to the end of his life, when he writes movingly about facing death. Mystic, patriot, and poet, Gibran urges us to uproot complacency and corruption, and champion Love and Truth.
