

Ties That Bind: Familial Homophobia and Its Consequences

Hailed as a cri de coeur woven into a utopian vision by Susan Brownmiller (author of *Against Our Will*), *Ties That Bind* is the highly praised work of prizewinning writer and professor Sarah Schulman on familial homophobia, a phenomenon that, until now, has not had a name but is nevertheless an integral part of most peoples experience. *Ties That Bind* invites us to understand familial homophobia as a cultural crisis, rather than a personal or an individual problem. Ambitious, original, and deeply important, Schulmans book draws on her own lived experience, her research, and her engagement with active social change to articulate a practical, attainable vision of transformation that can begin today. This highly acclaimed and groundbreaking exploration is now available in paperback for countless more to experience a fundamental text that alters our understanding of homophobia and adds a critical dimension to the political landscape of all Americans.
