

Wake Up America

This book is about the sad shape that America is in. this book is for the people of America. How crime is out of control and getting worse. How the justice system is just not working for us. The lawyers and judges, it seems are more sympathetic to the criminals, than to the victims. There needs to be a change now. The politicians, who really dont care about the American people, only about other countries and themselves. It shows that they have no interest in the United States of America. We really need a change in Washington now. Other wise this country is going down. This book is about the changes I think should happen. That is why I wrote this book. We have to save our futures and our childrens futures. We must stand up for our freedom now. I am you and you are me. WAKE UP AMERICA BEFORE ITS WAY TO LATE.

GOD BLESS US
