

Spring and the Labour Story

From Dan Spring to Dick Spring - the Spring family political career has been intertwined with the fortunes and misfortunes of Labour in Irish politics for half a century. From North Kerry seat to Tanaiste, the Springs have come a long way since 1943 when Dan first stood for election. Dick Spring is by far the most successful Labour leader in the country's history. How has he done it? This book tells how Dick Spring pulled off the seemingly impossible feat of transforming himself and his party from the no-hopers of the 1980s into the most vibrant political force of the 1990s. By following the career of the Spring family, it traces fifty years of Labour politics and examines the party's role in various governments since 1948. It charts Dick Spring's amazing career, and looks at his fight for control of his own party. It also tells the inside story of the negotiations which took place after the 1992 election and why Labour opted for the historic compromise with the old enemy, Fianna Fail.
