

Literature Dogma: An Essay Towards a Better Apprehension of the Bible (Classic Reprint)

Excerpt from Literature Dogma: An Essay Towards a Better Apprehension of the Bible An inevitable revolution, of which we all recognise the beginnings and signs, but which has already spread, perhaps, farther than most of us think, is befalling the religion in which we have been brought up. In those countries where religion has been most loved, this revolution will be felt the most keenly; felt through all its stages and in all its incidents. In no country will it be more felt than in England. This cannot be otherwise; it cannot be but that the revolution should come, and that it should be here felt passionately, profoundly, painfully; but no one is on that account in the least dispensed from the utmost duty of considerateness and caution. There is no surer proof of a narrow and ill-instructed mind, than to think and uphold that what a man takes to be the truth on religious matters is always to be proclaimed.
