

The Cynics Word Book (Annotated)

The Cynics Word Book (Annotated) This book include Ambrose Bierces biography and his work. With reference to certain actual and possible questions of priority and originality, it may be explained that this Word Book was begun in the San Francisco Wasp in the year 1881, and has been continued, in a desultory way, in several journals and periodicals. As it was no part of the authors purpose to define all the words in the language, or even to make a complete alphabetical series, the stopping-place of the book was determined by considerations of bulk. In the event of this volume proving acceptable to that part of the reading public to which in humility it is addressed enlightened souls who prefer dry wines to sweet, sense to sentiment, good English to slang, and wit to humor there may possibly be another if the author be spared for the compiling. A conspicuous, and it is hoped not unpleasing, feature of the book is its abundant illustrative quotations from eminent poets, chief of whom is that learned and ingenious cleric, Father Gassalasca Jape, S. J., whose lines bear his initials. To Father Japes kindly encouragement and assistance the author of the prose text is greatly indebted.
