

## Vishy Anand: World Chess Champion

Anand has been one of the worlds top players for more than two decades, and cemented his place in the all-time hall of fame by winning the unified World Championship in 2007, and successfully defending his title against Kramnik and Topalov. But its not just his results that make Anand special. His style of play leads to highly spectacular games, and his speed of thought is the stuff of legends. He is also a great explainer of ideas, as his annotations for this book demonstrate. Anand is renowned as Mr Nice Guy, popular with both the public and his fellow supergrandmasters. John Nunn, who collaborated with Anand on the original book, has annotated 30 games selected by Anand himself from the period 2001-2011. This new edition also features biographical information and a career record.
